Rotary Club of Nashik Airport in collaboration with the American Water Works Association, India (AWWAIndia) hosted a special event with the students of the J.D.C. Bytco Primary School, Nashik. AWWAIndia has recently launched a new illustrated workbook called the Water Wonderful in international English and Adbhut Paani in Hindi to teach children, between the ages of 5 to 8 years, the importance of preserving water and ways of using it judiciously.

A one-day workshop was held at the school on 10th March, 2018 where the school principle and other teachers distributed the books and introduced children to important water-related topics such as: water is life, water science, water conservation, weather, the water cycle, water scarcity and water distribution through this book.

Water Wonderful features:-
- International perspectives and hands-on activities
- It teaches children early about important water related topics; water is life, water science, water conservation, weather, the water cycle, water scarcity, water distribution, and safe and healthy water.
- The book uses simple text, childlike illustrations and interactive sections that enhances a child’s creativity

AWWAIndia, through Water Wonderful, wants to create a shift in a child's behaviour towards water through continuous follow-up on activities over a period of time.
